

## Lyra Therapeutics Reports Second Quarter 2023 Financial Results and Provides Corporate Update

August 8, 2023

- -- ENLIGHTEN I Pivotal Phase 3 Trial of LYR-210 in Pre-Surgical Chronic Rhinosinusitis (CRS) on Track to Complete Enrollment in the Coming Weeks, with Data Expected in 1H 2024 --
- -- Initial Topline Results from BEACON Phase 2 Trial of LYR-220 in Post-Surgical CRS Now Anticipated Earlier Than Expected, in September 2023 --

WATERTOWN, Mass., Aug. 08, 2023 (GLOBE NEWSWIRE) -- Lyra Therapeutics, Inc. (Nasdaq: LYRA) ("Lyra" or the "Company"), a clinical-stage biotechnology company developing long-acting anti-inflammatory therapies for the localized treatment of chronic rhinosinusitis (CRS), today reported its financial results for the second quarter ended June 30, 2023 and provided a corporate update.

"Lyra is approaching two exciting clinical milestones: We expect to complete enrollment in the ENLIGHTEN I pivotal trial of LYR-210 in pre-surgical CRS patients in the coming weeks, with data expected in the first half of 2024," said Maria Palasis, Ph.D., President and CEO of Lyra. "In addition, this September, we will report initial topline results from the BEACON Phase 2 trial of LYR-220. This 40-patient, proof-of-concept study is the first clinical evaluation of Lyra's technology in the post-surgical setting and is intended to demonstrate safety and evaluate the therapeutic potential of LYR-220 for CRS patients who continue to experience symptoms despite prior ethmoid sinus surgery."

Dr. Palasis continued, "We strengthened our balance sheet to support the Company well beyond these key milestones with the completion of a private placement in May 2023, resulting in net proceeds of \$46.7 million from existing and new shareholders. We believe this successful financing speaks to the enthusiasm for Lyra's drug delivery technology for CRS patients in need."

#### Lyra Program Highlights

## ENLIGHTEN Pivotal Program of LYR-210 in CRS Patients with Surgically Naïve Ethmoid Sinuses

- Enrollment in the pivotal Phase 3 ENLIGHTEN I trial is ongoing, with completion expected in the coming weeks. Initial topline results from the ENLIGHTEN I clinical trial are anticipated in the first half of 2024.
- Enrollment is ongoing in the second pivotal Phase 3 trial, ENLIGHTEN II; enrollment completion is expected in the second half of 2024.

The ENLIGHTEN program consists of two pivotal Phase 3 clinical trials, ENLIGHTEN I and ENLIGHTEN II, to evaluate the efficacy and safety of LYR-210 for the treatment of CRS. Each trial is enrolling 180 CRS patients who have failed medical management and have not had prior ethmoid sinus surgery, randomized 2:1 to either LYR-210 (7500µg mometasone furoate (MF)) or control for 24 weeks. The aim of the two pivotal trials is to support a New Drug Application to the U.S. Food and Drug Administration for LYR-210. Lyra has manufactured LYR-210 in house for both ENLIGHTEN trials.

#### BEACON Phase 2 Clinical trial of LYR-220 in Post-Surgical CRS Patients

• Initial topline results from the BEACON trial are expected in September 2023.

The Phase 2 BEACON trial is a randomized, controlled, parallel-group study to evaluate the safety and placement feasibility of the LYR-220 (7500µg MF) matrix, over a 24-week period, in symptomatic adult CRS patients who have had prior bilateral ethmoid sinus surgery. Efficacy will also be assessed. The trial enrolled 40 patients and has a primary objective of evaluating the safety of LYR-220 for the treatment of CRS.

#### In-House Manufacturing

• In Q4 2022, Lyra announced the transition of manufacturing from a third-party manufacturer to in-house, leveraging its expertise to reliably supply product. Lyra intends to continue to advance its in-house manufacturing capabilities to prepare for commercial production.

## Second Quarter 2023 Financial Highlights

Cash, cash equivalents and short-term investments as of June 30, 2023 were \$116.2 million, compared with \$82.7 million at March 31, 2023. Based on our current business plan, we anticipate that our cash, cash equivalents and short-term investment balance is sufficient to fund our operating expenses and capital expenditures into the first quarter of 2025.

On May 31, 2023, Lyra closed a private placement of common stock, pre-funded warrants to purchase common stock and purchase warrants to purchase common stock, resulting in net proceeds of approximately \$46.7 million. The private placement included participation from new and existing investors, including Perceptive Advisors, Venrock Healthcare Capital Partners, Armistice Capital, Surveyor Capital (a Citadel company), North Bridge Venture Partners, Nantahala Capital, Samsara BioCapital, and Woodline Partners LP.

Research and development expenses for the quarter ended June 30, 2023 were \$10.8 million compared to \$10.8 million for the same period in 2022. During the quarter ended June 30, 2023, clinical development costs increased by \$1.2 million as we continued to enroll patients in our ENLIGHTEN I and ENLIGHTEN II Phase 3 clinical trials, while employee related costs increased by \$0.7 million as we increased our headcount to support increased research and development activities. These increases were offset by decreased product development and manufacturing costs of \$1.5 million related to bringing production efforts in-house, decreased depreciation costs of \$0.3 million, decreased professional and consulting costs of \$0.2 million and

decreased support costs of \$0.1 million.

General and administrative expenses for the quarter ended June 30, 2023 were \$4.6 million compared to \$4.1 million for the same period in 2022. The increase was primarily attributable to increased employee related costs of \$0.5 million, of which \$0.2 million was related to stock-based compensation as well as an increase in support costs of \$0.3 million and increase in professional and consulting fees of \$0.1 million. This increase was partially offset by decreased public company-related costs of \$0.4 million and decreased allocated overhead costs of \$0.2 million.

We recognized \$1.6 million related to loss on impairment of long-lived research and development assets currently held by our former contract manufacturer.

Net loss for the quarter ended June 30, 2023 was \$15.6 million compared to \$14.4 million for the same period in 2022.

## **About Lyra Therapeutics**

Lyra Therapeutics, Inc. is a clinical-stage biotechnology company developing long-acting anti- inflammatory therapies for the localized treatment of patients with chronic rhinosinusitis (CRS). Lyra has two investigational product candidates, LYR-210 and LYR-220, in late-stage development for CRS, a highly prevalent inflammatory disease of the paranasal sinuses which leads to debilitating symptoms and significant morbidities. LYR-210 and LYR-220 are bioresorbable nasal implants designed to be inserted in a simple, in-office procedure and are intended to deliver six months of continuous mometasone furoate drug therapy (7500µg MF) to the sinonasal passages. LYR-210 is designed for surgically naïve patients and is being evaluated in the ENLIGHTEN Phase 3 clinical program, while LYR-220, an enlarged implant, is being evaluated in the BEACON Phase 2 clinical trial in patients who have recurrent symptoms despite prior ethmoid sinus surgery. These two product candidates are designed to treat the estimated four million CRS patients in the United States who fail medical management each year. For more information, please visit <a href="https://www.lyratx.com">www.lyratx.com</a> and follow us on <a href="https://www.lyratx.com">LinkedIn</a>.

#### **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this press release that do not relate to matters of historical fact should be considered forward-looking statements, including statements regarding the Company's cash runway into the first quarter of 2025, the Company's pipeline of product candidates, the timing, enrollment and success of the ENLIGHTEN Phase 3 program, the timing for reporting top line data from the Company's clinical trials, the Company's ability to manufacture its product candidates in-house, the safety and efficacy of the Company's product candidates and the outcome of the Phase 2 BEACON trial. These statements are neither promises nor guarantees, but involve known and unknown risks, uncertainties and other important factors that may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including, but not limited to, the following: the fact that the Company has incurred significant losses since inception and expects to incur additional losses for the foreseeable future; the Company's need for additional funding, which may not be available; the Company's limited operating history; the fact that the Company has no approved products; the fact that the Company's product candidates are in various stages of development; the fact that the Company has never scaled up an in-house manufacturing facility for clinical or commercial use; or the fact that the Company may not be successful in its efforts to identify and successfully commercialize its product candidates; the fact that clinical trials required for the Company's product candidates are expensive and time-consuming, and their outcome is uncertain; the fact that the FDA may not conclude that certain of the Company's product candidates satisfy the requirements for the Section 505(b)(2) regulatory approval pathway; the company's inability to obtain required regulatory approvals: effects of recently enacted and future legislation: the possibility of system failures or security breaches; effects of significant competition; the fact that the successful commercialization of the Company's product candidates will depend in part on the extent to which governmental authorities and health insurers establish coverage, adequate reimbursement levels and pricing policies; failure to achieve market acceptance; product liability lawsuits; the fact that the Company must scale its in-house manufacturing capabilities or rely on third parties for the manufacture of materials for its research programs, pre-clinical studies and clinical trials and commercial supply; the Company's reliance on third parties to conduct its preclinical studies and clinical trials; the Company's inability to succeed in establishing and maintaining collaborative relationships; the Company's reliance on certain suppliers critical to its production; failure to obtain and maintain or adequately protect the Company's intellectual property rights; failure to retain key personnel or to recruit qualified personnel; difficulties in managing the Company's growth; effects of natural disasters, terrorism and wars (including the war between Ukraine and Russia); the fact that the global pandemic caused by COVID-19 could adversely impact the Company's business and operations, including the Company's clinical trials; the fact that the price of the Company's common stock may be volatile and fluctuate substantially; significant costs and required management time as a result of operating as a public company and any securities class action litigation. These and other important factors discussed under the caption "Risk Factors" in the Company's Quarterly Report on Form 10-Q filed with the SEC on August 8, 2023 and its other filings with the SEC could cause actual results to differ materially from those indicated by the forward-looking statements made in this press release. Any such forward-looking statements represent management's estimates as of the date of this press release. While the Company may elect to update such forward-looking statements at some point in the future, it disclaims any obligation to do so, even if subsequent events cause its views to change.
